

Application No.: 10/771045
Docket No.: UC0209USNA

Page 3

Remarks

Applicants' amendment to the specification corrects an obvious typographical error. That is, one of ordinary skill would know that 10.0 mg of tris(4-bromophenyl)amine is 0.02 mmol, not 2.0 mmol. No new matter is introduced.

With respect to the election of the species for examination, Polymer 1 is elected

and Claims 1 – 9 and 12 all read on this elected specie.

Respectfully submitted,

MARY ANN CAPRIA
